

# FlashBACK<sup>™</sup>

## INTERACTIVE STAFF TRAINING ACTIVITY

Flashback<sup>™</sup> is an interactive staff training activity that draws on the power of everyday items from the past to ignite the senses, evoke memories, and change relationships.

Flashback<sup>™</sup> is purchased as a boxed set with 100 high-quality images that were carefully chosen to span multiple generations, a Leader Guide and an Answer Guide. Cost is \$55.00. Each facility must order its own licensed copy of the program. Quantity discounts available.

Flashback<sup>™</sup>... Discover how everyday items from the past ignite the senses, evoke memories and change relationships. Flashback<sup>™</sup> is an interactive training program for professional and family caregivers that builds insight into how everyday items are a powerful communication tool to strengthen care partner relationships. This program integrates well with Dementia Live<sup>®</sup> or Compassionate Touch<sup>®</sup>, as it will deeply engage the past to restore identity, dignity, purpose and joy of living for those they are caring for.

Flashback<sup>™</sup> will guide care partners in how to reconnect elders with experiences of daily life, recapture feelings, and strengthen bonds with care partners. After completing the Flashback<sup>™</sup> training, staff will better understand how important “things” can be in evoking memories of long ago that still may be very real to their care partners.
